

K-Love radio is a positive sound in my life. I am a wife of a compulsive gambler, and I can't even begin to tell you all the help and new attitude on life this programming has given me. I need this station often to get me through the day.

I truly believe my community would be very displaced without K-Love programming. Our community needs the positive messages and the hope of reaching those like myself who are enduring hardships of every kind. Our culture has gone astray from the absolute truth, the truths within the bible-God's words!!! I know this because I am that average American that left God's words and landed in a black hole. I found His light again and I am never going back to our culture's idealism's. Our country needs God, with out Him we will be sure to follow the history of many nations like Germany, Rome, etc.

I know there are many people like myself who believe in this station because of the tremendous financial support to keep it running. The station has been in trouble in the past. Time after time the listeners step up and say, I want my K-Love, here is my share of the financial support.

Thank you for your time.
